Optimas Solutions Announces New European HQ

Optimas Solutions announces the opening of its new European Headquarters in Hambach, France. Optimas, the leading global industrial distributor and service provider specializing in fastening and supply chain solutions, has relocated from its facility in Sarreguemines, France, to a brand-new distribution hub in Hambach. The strategic decision enhances Optimas' investment in Europe and strengthens supply chain security and operational efficiency. The new facility has a 6000 m² warehouse that can hold up to 9500 pallets and 1500 m² of modern office space for over 70 employees for sourcing, supply chain, engineering, quality, sales and operations teams, as well as a dedicated team providing products and services to the tunnel industry. The new facility is ISO 9001, ISO 14001 and ISO 45001 accredited and supplies leading OEMs and tiers across many industries.

Since 2021, Optimas has seen major growth in Europe and now supports over 500 customer locations across 30 countries, managing over 3000 parts from 400 suppliers. And over 70 tunnel projects are currently supported globally. The opening of the facility also celebrated Optimas' 10-year anniversary since its inception in 2015. www.optimas.com

Barry MacLean Named to Illinois Manufacturing Hall of Fame

MacLean-Fogg proudly shares the remarkable milestone that its Chairman, **Barry MacLean**, has been selected as a 2025 inductee into the Illinois Manufacturing Hall of Fame. Presented by the **Illinois**

Congratulations
Barry MacLean
2025 Inductee
Illinois Manufacturing Hall of Fame

Manufacturers' Association, this recognition honors those who have made a lasting impact on the manufacturing industry in the state of Illinois. Barry's induction is a reflection of his extraordinary leadership, unwavering integrity and long-standing commitment to innovation and community. An engineer by training, Barry has led MacLean-Fogg through significant growth—from a single-site manufacturer to a global enterprise with over three dozen locations worldwide. His influence extends far beyond the factory floor, with decades of service to organizations like the **School of the Art Institute of Chicago**, the **Griffin Museum of Science & Industry** and **Dartmouth College**. Barry's story is deeply woven into the fabric of MacLean-Fogg—and this honor is one the company is proud to share as a team, "Congratulations, Barry, on this well-deserved recognition!" www.macleanfogg.com

MDM's Top Distributors Feature Includes Fasteners

Mike Hockett, Executive Editor at **Modern Distribution Management (MDM)**, Washington, DC, USA, reports,

"After many hours spent studying spreadsheets, a great volume of emails and much web page testing, MDM's 2025 Top Distributors Feature is now live and available for viewing and downloading." Visitors to the MDM website, can explore MDM's 20 different lists, including the top fastener distributors.

MDM thanks the sponsors of this year's rendition, which are **SAP** (Platinum), **BigCommerce** (Gold) and **Epicor** (Silver) for their support

and everything they do to support the wholesale distribution industry.

Visitors can peruse the whole feature by completing a brief registration form there grants access to a downloadable Top Distributors PDF and to the web directory. The latter provides additional information such as previous year's rankings and revenue, distributor company headquarters location and figures for total locations and employees at each company. Also, some of the different web listings also extend further than they are in the PDF. www.mdm.com

Top Fastener Distributors

While distributors are ranked by 2024 annual fiscal revenue within this vertical, the figure shown is total company revenue

Rank	Company	2024 Revenue
1.	Federal Company	\$7.5B
2.	World Industry North America	N/A
3.	The Wilson Group	\$1.5B
4.	MidMaster Corp.	N/A
5.	MSC Industrial Supply	\$3.8B*
6.	Bearing Distribution	N/A
7.	AFC Industries	\$700M
8.	Optima OE Solutions	\$639M
9.	Endress International	\$500M+
10.	Applied Industrial Technologies	\$47B
11.	Distribution Solutions Group	\$1.8B
12.	EPC International	N/A

2025 Fastener Innovation Awards

Mike McGuire, President of **Worldwide Fastener Sources.com LLC**, Daniel Island, SC, USA, has announced the "2025 Fastener Innovation Awards," which include a framed Certificate of Recognition of Fastener Innovation and a unique 12" Replogle Crystal Marquise World Globe for each winner.

McGuire, says, "The USA leads the world in innovation and in particular, fasteners and fastening systems. Fastener innovation is strong and ongoing, and called a 'Technology Trend' in the fastener industry."

A driving force in the evaluation process for a Fastener Innovation Award is that the fasteners be innovative in assemblies today and that they will be tomorrow's standard. The 2025 Fastener Innovation Award Winners are as follows:

- Nord-Lock® Combi Nut Washer & Nut Combo
- Kwantex® KTX-Jig Hidden Deck

Ed Smith Elected NFDA President for 2025-2026

Spartan Fastener Acquires American Jebco

Spartan Fastener, Trevor, WI, USA, a leading manufacturer and distributor of high-performance fastening solutions, has announced the acquisition of **American Jebco**, a trusted supplier of specialty fasteners and rivets. The acquisition strengthens Spartan Fastener's product offering, manufacturing capabilities and position in critical markets across North America.

Founded in 1903, American Jebco has built a reputation for quality, precision, and customer service, serving industries such as automotive, construction/hardware and fire safety equipment. By integrating Jebco's specialized products with Spartan's extensive fasten-

ing solutions, the combined company will deliver greater value to customers through a broader product portfolio, increased manufacturing flexibility, and enhanced supply chain efficiency.

Key leadership from American Jebco will remain in place, preserving institutional knowledge and customer relationships while benefiting from the expanded resources and scale of Spartan Fastener.

Towering piece of art relies on Nord-Lock washers

The high above ground bLINK art project in Sweden is secured with Nord-Lock® wedge locking washers to ensure safe bolted connections in this demanding installation. This massive pink structure looms above the Olskroken traffic junction in the Swedish city of Gothenburg. It is about the size of a typical convenience store.

bLINK is a permanent installation intended to last for decades, so it needed to be built to withstand the test of time, but also endure the unique vibration conditions of its location. And Nord-Lock washers are a key part in making that possible. Nord-Lock wedge-locking washers are documented to stay secure through severe vibration and have been used in billions of projects around the world and across every industry, earning a reputation for uncompromising quality and reliability when safety is of the utmost importance.

BUMAX Forms Partnership with Standart Civata and Invests in Equipment for Product Development

Swedish premium fastener manufacturer, **BUMAX**, has strengthened its market presence in Turkey, with a new strategic agreement with **Standart Civata (STD)**, a leading distributor of high-quality fasteners. The partnership marks a milestone in the BUMAX international growth strategy, aimed at strengthening its distribution network and brand presence in key markets.

"BUMAX's premium stainless-steel fasteners are a perfect fit for the Turkish market," said **Kuntay Ayberkin**, Standart Civata GM. BUMAX held a training session for the Standart Civata team in Turkey, to raise awareness of the unique characteristics and capabilities of BUMAX fasteners.

BUMAX has also invested in equipment to enhance its product development capabilities. New equipment includes 120-ton and 25-ton tensile testing machines, a new optical measuring machine, a new microsamples lab line and data consolidation software. www.bumax-fasteners.com

Motion opens new branch in Quebec, Canada

Motion Industries, Inc., Birmingham, AL, USA, a leading distributor of maintenance, repair and operation (MRO) replacement parts, and a premier provider of industrial technology solutions, announces the opening of a new sales branch in Quebec, Canada. The new facility, located at 2903 7th Street, Val-d'Or, officially opened on June 2, 2025. This strategic location strengthens Motion Industries' capability to better serve and expand its customer base in Northern Quebec.

The newly opened Val-d'Or facility joins an extensive network of approximately 70 Motion branches across Canada, further expanding the company's market footprint. Services include product order fulfillment supported by a large inventory network as well as engineering and repair services in pneumatics, hydraulics and power transmission.

The new Quebec location also offers industry training opportunities for customers.

Bufab recognized as CDP; Divests a small USA manufacturing unit

Bufab has been selected as a Supplier Engagement Leader, earning a spot on the esteemed A List in 2024 by CDP, a global non-profit environmental organization. This recognition honors companies that not only take responsibility for their own climate impact, but also actively drive change across their supply chain. It is a strategic tool for future-proofing operations, creating business value and contributing to the global climate transition.

Erik Lundén, Bufab CEO/President,

Signature Engineered Solutions in Agreement to Distribute Unbrako Fasteners Across North America

Signature Engineered Solutions, Aurora, IL, USA, a provider of engineered fasteners for manufacturing and industrial applications, has been selected as a North American distributor for **Unbrako**, a global manufacturer of high-strength industrial fasteners.

"The addition of Unbrako products to our broad line of fasteners will enable us to serve more customers in more markets across North America," said **Michael Delfin**, Chief Commercial Officer (CCO) at Signature. "This agreement reflects our growth strategy of leveraging our strong supply chain network and customer base to acquire

more in-demand product lines." Unbrako fasteners are used in the transportation, power generation, construction, wind energy, military and other markets.

Developer of the first internal hexagon socket screw, Unbrako is also known worldwide for its socket head cap screw, self-locking Durlok® fasteners and many other fastener products.

"We are excited about capitalizing on Signature's sales, engineering and technical capabilities to expand Unbrako's presence in North America," said **Seamus McGiff**, CEO of Unbrako. www.sigengineered.com

Fastener Plating, Coatings & Corrosion Training at IFE 2025

The **Fastener Training Institute (FTI)** will host *Fastener Platings, Coatings and Corrosion*, a full-day workshop during *International*

Fastener Expo (IFE). The training is Monday, September 15, 2025, at the **Mandalay Bay** in Las Vegas.

Carmen Vertullo, FTI instructor, and owner/founder of **Carver Labs**, will lead the event. Attendees who invest in this professional development will gain extensive knowledge about corrosion in fasteners. The full-day training targets the critical need to choose the right materials and finishes to combat corrosion. There are several strategies to employ, and for suppliers, manufacturers or fastener users, it is essential to know all options. Students will learn about each strategy to be better informed when making decisions for corrosion prevention.

"The need for safety in our industry is essential. By taking advantage of training while at *IFE*, training event attendees will gain extensive knowledge to keep sharp in the workplace. We look forward to seeing many fastener professionals take advantage of this day session while at *IFE*," shared **Jo Morris**, FTI's Managing Director.

The *Fastener Platings, Coatings and Corrosion* training event is technical, and standards based, but is suitable for all levels of experience in the fastener industry.

Use promo code Training50%off and save 50% on *International Fastener Expo* registration. During registration, sign-up for *Fastener Platings, Coatings and Corrosion*. The cost to attend the workshop is US\$399 through September 1, 2025. After that, the price increases to US\$499.
